HOW WE ACCOMPLISH CHANGE

Enhance Care and Support

We provide reliable resources, support and information to all those affected by Alzheimer's and related dementias. In addition to our respected role in face-to-face support services, we provide support 24 hours a day, seven days a week, through our website (alz.org) and Helpline (800.272.3900).

Accelerate Research

The Association is the largest nonprofit funder of Alzheimer's disease research in the world. We unite the global research community to accelerate the pace of discovery toward methods of treatment, prevention and, ultimately, a cure.

Advance Public Policy

We are the leading voice for Alzheimer's disease advocacy at the state and federal level. Our efforts are relentless to make Alzheimer's a national priority while speaking up for the needs and rights of people with Alzheimer's and their families.

Increase Concern and Awareness

By growing the nationwide conversation about the staggering economic and societal impact of Alzheimer's, the public and policymakers can take appropriate actions to change the course of the disease. Families can gain the knowledge needed to seek diagnosis, access support services and plan for the future.

Grow Revenue Support of the Mission

Individuals, families, corporations and foundations demonstrate their powerful, ongoing commitment to ending Alzheimer's through their philanthropy. These generous contributions enhance the Association's ability to drive progress as the leading voluntary health organization in Alzheimer's care, support and research.

Our vision is a world without Alzheimer's
