Abstract

An abstract is a short summary of your completed research. If done well, it makes the reader want to learn more about your research. The basic components of an abstract are:

1. **Introduction**: Why do we care about the problem? What practical, scientific, or theoretical gap is your research filling?
2. **Methods/procedure/approach**: What did you actually do to get your results?
3. **Results/findings/product**: As a result of completing the above procedure, what did you learn/invent/create?
4. **Conclusion/implications**: What are the larger implications of your findings, especially for the problem/gap identified in step 1?

**The abstract must not exceed one page in length.**

Any abstracts received after the deadline will not be included in the abstract book.

**POSTERS**
The available space on each poster board is 4 ft X 4 ft. Push pins will be provided. If you have additional questions, contact Andrea Sartori, PhD at andrea_sartori@brown.edu
