Help us make Alzheimer’s disease a priority in South Carolina by participating in our State House Day! This year’s event will provide opportunities for you to meet with your legislators in their offices as well as in the State House Lobby.

RSVP ONLINE TODAY AT ALZ.ORG/SC.

This year, we are asking legislators to continue funding the Alzheimer’s Caregiver Respite Program. This important program helps dementia caregivers take a break and take care of their own health, too!

We are also asking legislators to fund a full-time Alzheimer’s Program Manager role at the new Department on Aging. Existing state law outlines responsibilities for such a role within the Alzheimer’s Resource Coordination Center, but this has never been funded.

We will provide a recorded training on these topics in advance of State House Day, so you can prepare whenever it fits your schedule. But the most important thing is to share YOUR story with your legislators!

RSVP TODAY TO HELP TURN OUR STATE CAPITOL PURPLE!
