

Associated Press

April 4, 2013

“... Alzheimer's is the most expensive malady in the U.S. ...”

Bloomberg

April 4, 2013

“... exceeding that for heart disease and cancer ...”

The New York Times

April 4, 2013

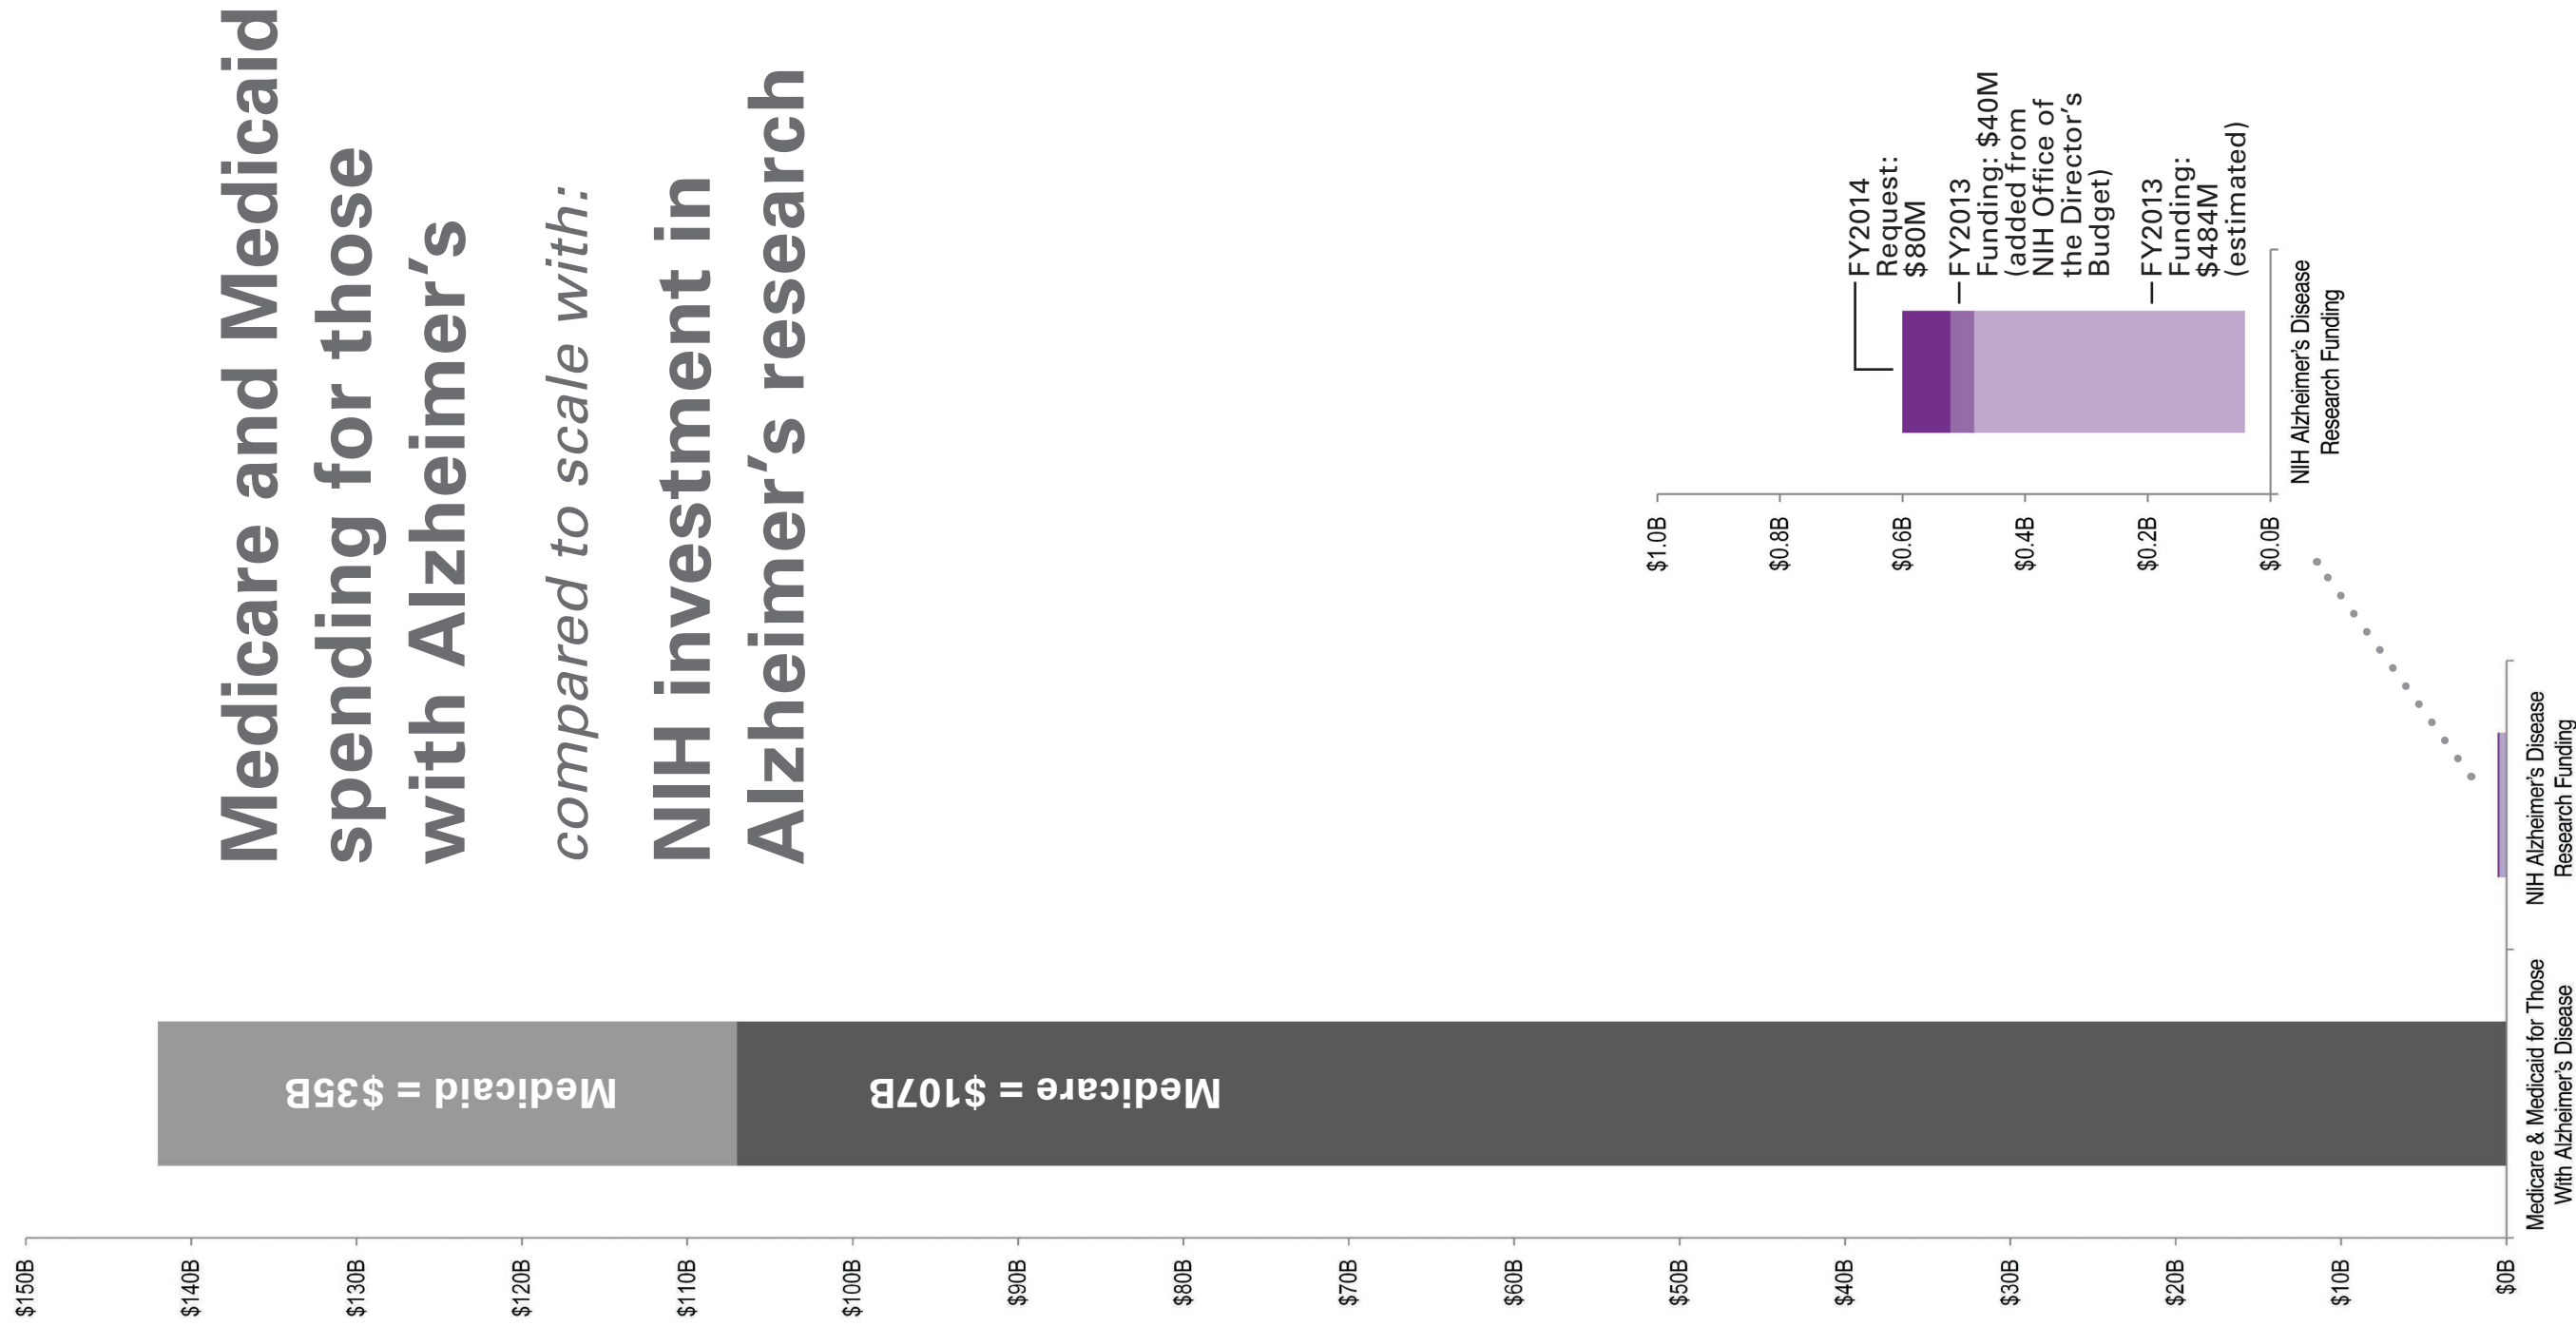

“... skyrocketing at a rate that rarely occurs with a chronic disease.”

CONGRESS, NOW IS THE TIME TO TAKE ACTION.

Alzheimer's disease is the sixth-leading cause of death and the only one in the top 10 without a way to prevent cure or even slow its progression. More than 5 million Americans are living with Alzheimer's today. Mothers, fathers grandparents and friends suffer from this devastating and heartbreaking disease that steals their lives. Millions more will develop Alzheimer's disease—maybe even you. Congress, it's time for you to change our future.
