Dodge, and Lon Schneider

---

## **MEETING SUMMARY**

### **I. Attendees:**

Erin Abner  
Larry Adler  
Ari Bhaumik  
Marc Cantillon  
Maria Glymour  
Dharma Singh Khalsa  
Dick Kryscio  
Nancy Laracey  
Holly Posner  
Barry Reisberg  
Richard Scheyer  
Andrew Zhou

### **II. Minutes:**

To determine short and long term goals, attendees discussed challenges and issues in clinical trials these days. (Full list of issues raised by the attendees are included in the membership survey). We decided to determine top candidate issues by taking surveys among the PIA members and create working groups to examine some of the issues. Each working group can determine the final product to be generated at the end of 1 year (or before the 2016 AAIC). Interactions across working groups are encouraged.

Next step: Circulate the survey, set the priority issues and create working groups. Leaders of working groups will serve as executive committee members.

### **III. Meeting adjourned**
