About the Caregiver's Conference

This conference is for both caregivers and professionals who dedicate their lives to caring for people with Alzheimer's disease and related dementias. Caring for someone with Alzheimer's disease or a related dementia is truly a labor of love. We offer varied workshops throughout the day that provide caregivers and professionals with the tools to carry on their journey of caring and supporting persons with Alzheimer's disease and related dementias. We welcome over 500 attendees annually.

About the Alzheimer's Association®

The Alzheimer's Association is the world's leading voluntary health organization in Alzheimer's care, support and research. We address this global epidemic by providing information, education and support to the millions who face dementia every day, while advancing critical research toward methods of treatment, prevention and, ultimately, a cure.

Our mission: The Alzheimer's Association leads the way to end Alzheimer's and all other dementia – by accelerating global research, driving risk reduction and early detection, and maximizing quality care and support.

Our vision is a world without Alzheimer's and all other dementia.
