ALZHEIMER’S DISEASE IS A GLOBAL CRISIS WITH SIGNIFICANT LOCAL IMPACT.

Alzheimer’s is more than just memory loss — it is a progressive and fatal disease. Currently, more than 6 million Americans are living with Alzheimer’s and 11 million provide unpaid care for them. Locally, the disease continues to devastate our families, finances and future.

In Florida, there are:
» 580,000 people living with Alzheimer’s.
» 806,000 people who care for them.
» In 2021, these caregivers provided 1.2 million hours of unpaid care valued at $20.6 billion.

ALZHEIMER’S AFFECTS US AT HOME AND AT WORK.

6 in 10 caregivers were employed in the past year.

These individuals worked an average of 35 hours per week while caregiving.

18% of caregivers went from full-time to part-time or cut back hours.

Nine percent of caregivers gave up working entirely.

57% of employed caregivers had to go in to work late, leave early or take time off due to caregiving demands.

Six percent retired early.
